There is a great need for counselling and therapy among school and college students, industry, youth, old people and general population.

- . The major objective of the course is to prepare professionally competent students with special skills in Counselling and Psychotherapy.
- . This will be achieved by exposing the students to both theoretical and practical training.
- The trained students can get placements in schools, business organizations, mental health clinics, hospitals and voluntary agencies.

Core Courses

Core Courses i.e. will be categorized into two sections:

A A A A A A A
